**PETITION UNDER 37 C.F.R. §1.47(a) FOR FILING PATENT
APPLICATION BY OTHER THAN ALL OF THE INVENTORS**

Assistant Commissioner for Patents
Washington, D.C. 20231

December 29, 1999

Sir:

Applicants hereby petition the Commissioner of Patents and Trademarks to accept the filing of the above-referenced U.S. patent application by other than all of the inventors.

A Declaration of Facts is attached hereto providing proof of the pertinent facts concerning the refusal of a co-inventor to join in the present application for patent.

The name and last known address of the co-inventor refusing to join in the application are as follows:

Name: Andrew J. Varga
Address: 29292 Marvin
Farmington Hills, Michigan 48331

It is believed that at least one of the inventions disclosed and currently claimed in the above-referenced application was developed in conjunction with and/or under the authorization of

Automotive Technologies International, Inc., the assignee of the application and inventions by virtue of an assignment from the inventors joining in the filing of the application, by Andrew J. Varga, the non-signing inventor, jointly with one or more of the cooperating inventors during the course of their employment by Automotive Technologies International, Inc. Upon information and belief, Automotive Technologies International, Inc. is therefore entitled to clear title to the disclosed and claimed inventions and to the above-referenced patent application and any patent which issues therefrom.

In view of Andrew J. Varga's refusal to execute the Declaration/Power of Attorney required for filing the above-referenced patent application, the remaining inventors are believed to be entitled to make such application on behalf of and as agent for their co-inventor (Andrew J. Varga).

The required fee pursuant to 37 C.F.R. §1.17(h) should be charged to Deposit Account No. 50-0266. A duplicate copy of this sheet is therefore enclosed.

Respectfully submitted,

By:

**DECLARATION OF FACTS IN SUPPORT OF PETITION
UNDER 37 C.F.R. §1.47(a) FOR FILING PATENT APPLICATION
BY OTHER THAN ALL OF THE INVENTORS**

Assistant Commissioner for Patents
Washington, D.C. 20231

December 29, 1999

Sir:

1. I am the attorney of record for the inventors submitting the Petition under 37 C.F.R. §1.147(a) for filing a patent application by other than all of the inventors.
2. I have firsthand knowledge of the facts recited herein.
3. On December 9, 1999, a complete copy of the above-referenced patent application was forwarded by the Chairman of the assignee of the application (by virtue of an assignment from the inventors cooperating in the filing of the application) to Andrew J. Varga, the non-joining inventor, along with a Declaration/Power of Attorney therefor. A copy of this letter is attached hereto as Exhibit A. The letter was sent by registered mail, return receipt requested and a copy of the return receipt signed by Mr. Varga is attached hereto as Exhibit B.

4. Mr. Varga responded by letter of December 23, 1999, a copy of which is attached as Exhibit C, that he refused to sign the Declaration/Power of Attorney unless he is paid for his time to review the application.

5. Mr. Varga is a former employee of the assignee, Automotive Technologies International, Inc., and there is no provision in an employment contract or agreement that Mr. Varga is entitled to compensation for his review of any patent applications describing and claiming inventions to which he may have contributed while employed by Automotive Technologies International, Inc.

6. In view of the foregoing, a bona fide attempt to present a copy of the applications papers to the non-signing inventor was made, and was successful, and the refusal of the non-signing inventor to participate in the filing of the application is documented.

Dear David:

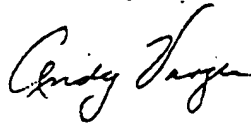

I have received your letter dated December 9, 1999 and the accompanying patent application package. I am pleased to learn that you are continuing the pursuit of adding value to ATI. I have not had the opportunity to look into the enclosed material to date.

Your request for my signature on the patent applications is noted in your letter. I would be happy to sign these after I complete a review the applications. That in turn requires the expenditure of my time. I would expect compensation for that effort. As you are aware, we do not presently have an agreement covering this. I would, of course, be willing to discuss this with you.

Assignment of the patents, is yet another matter. Again, we have no agreement governing patent assignments. I am willing to discuss this with you. In the meantime, I am returning the two checks, each for \$10.00.

I look forward to your reply. Be assured that we can discuss these matters in the course of good business, hopefully coming to an agreement beneficial to ATI, its customers and shareholders.

With best regards,
